McHenry County Farm Bureau (CFB) is continuing to work with the McHenry County Conservation District (MCCD) and the University of Illinois (U of I) to begin water sampling at the woodchip bioreactor installed in 2020 on MCCD property. A field day at the bioreactor site will be hosted as part of this year’s project, including a panel composed of farmers who have installed woodchip bioreactors on their farms.

**PRESENTERS:**

- **Dan Ziller**
  President, McHenry CFB – Welcome

- **Lauren Lurkins**
  Director of Environmental Policy, Illinois Farm Bureau – IFB Nutrient Stewardship Efforts

- **Elizabeth Kessler**
  Executive Director, MCCD – MCCD Background and Involvement in Partnership

- **Brad Woodson**
  Natural Resource Manager, MCCD - MCCD Farm Program, Site Selection, and Bioreactor Installation Details

- **Jackie Bero**
  Volunteer Coordinator - Natural Resources, MCCD; and MCCD Volunteer Team - Volunteer Program and Role in Partnership

- **Dr. Laura Christianson**
  Assistant Professor, Department of Crop Sciences, U of I - Bioreactor Water Quality Monitoring and Data

- **Farmer Bioreactor Panel:**
  Michael Ganschow, Bureau County
  Jeff Kirwan, Mercer County
  Todd VerHeecke, Henry County
  Brian Corkhill, Henry County

**LOCATION:**

4200 N Queen Anne Road,
Woodstock IL 60098
Follow signs to designated parking. People movers will transport attendees to the field day site.

**RSVP:**

RSVP by Tuesday, August 17th to the McHenry County Farm Bureau (CFB) by calling (815) 338-1520.

**DETAILS:**

Lunch will be served after the program.
